Re: Trash Bags

Dear Homeowners and Residents,

After many months of observation around the community, it has been noted that there are frequently several bags in front of homes on the days of trash pickup service.

In order to prevent sanitation problems such rodents digging into trash bags and other health concerns, the board of directors has decided **not to allow the use of bags to take out trash.**

We request everyone's cooperation. Please use trash containers to take the trash out and make sure they are properly closed so that rodents cannot get inside. Also, please remember to place the containers at the curbside on the appropriate days prior to 7:30 AM and bring your cans in as soon after pick-up as you can. If you are going to be out of town during the normally scheduled pick-up, please arrange to have one of your neighbors place your trash out for you at the appropriate time. Do not leave your trash can out in advance of pick-up, nor let it remain out until you return.

We remind you that trash pickup service occurs on Mondays and Thursdays. Recycling is collected every other Thursday. The county has provided each unit with a 65-gallon wheeled cart in which aluminum, glass, plastic and newspapers should be placed together for recycling.

Recycling bins are provided by the County, if you need one please call 311 or log in to www.miamidade.gov

If you need further information, please do not hesitate to contact Doral Management at 305-591-8715 or send an email to info@doralmanagement.com

We thank you for your cooperation.

Sincerely,
For the Board of Directors

Delia G. Arcelus, CAM
Property Manager
